- Amitabh Bachchan
(Brand Ambassador GRADO)

STRETCHABLE

UNIQUE TOUCH

4 WAY **STRETCH** FABRIC

COMFORTABLE

BREATHABLE

'From the plethora of fabrics offered by the brand GRADO in the men's and women's wear segments - the 'STREEZA' collection is its newest - offering to satisfy the ease of movement.

It is a premium 4-way stretch luxury fabric that epitomizes comfort. The stretch of the fabric is SPUN x SPUN which is an innovative and differentiated concept compared to the industry norm of using a Stretch filament in the fabric'

STRETCH FABRICS ARE SUPER EASY TO SEW!

It's A BIG MYTH that sewing with stretchy fabric can be a challenge. Stretch fabrics tend to make up a huge majority of people's wardrobes. They are comfortable, easy to wear and require minimal care. Therefore, stretch fabrics are THE NEXT BIG THING in the menswear category. Here are a few quick tips on how to get the best out of your stretch fabrics -

Tips & Suggestions

- 🧠 Use a ballpoint needle on your sewing machine – its rounded tip doesn't puncture stretch fabric.
- 🧠 The size matters after all. Ensure you opt for the right size of needle for your fabric.
- 🧠 Use stitches that will hold the stretch of the fabric. If you must sew with a straight stitch, then hold the material tight.
- 🧠 Keep the fabric relaxed as you sew, don't pull the fabric toward or away from you.
- 🧠 Special threads are not usually required and a regular polyester thread works well as it has a slight amount of stretch. Stay away from cotton-thread as it can break when pulled.
